Digital Marketing

Digital marketing encompasses all marketing efforts that use an electronic device or the internet. Businesses leverage digital channels such as search engines, social media, email, and their websites to connect with current and prospective customers.

Mobile Development

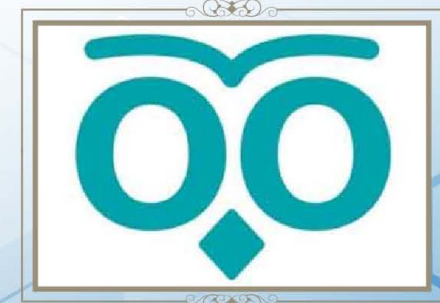

We leverage various Mobile Technologies, Frameworks & Platforms to provide comprehensive IT Services & Solutions which help our clients drive business value and innovation. We excel in designing, developing and integrating customized solutions on the Mobile Technologies.

WORK

Our web design and web development portfolio.

We have a diverse portfolio of clients and each one presents a unique challenge that we truly relish. Each of our clients get a very unique web design service that perfectly matches their requirements. Each pixel is carefully thought through and aligned with our clients' business objectives.

AD Concept

The ADC website needed a design overhaul in order to bring it further in-line with the latest website design and development trends. Keights India was chosen based on its vast expertise of working and its ability to consistently provide creative and user-friendly web design solutions to them.

Number Bazaar

numberbazaar.com provide users with great choice of numbers among all operators, and they needed a website that can cut through the clutter and deliver real value to their users. We achieved that with a property search function on the homepage above the fold that's followed by a featured properties section.
